

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

I. SCOPE AND METHODOLOGY

II. REPORT SYNOPSIS

1. ADME/Tox Technologies

Absorption

Distribution

Metabolism

Excretion

Toxicity

2. Significant Methods for ADME/Tox

Predictive Technologies

Related ADME/Tox Methods

3. ADME/Tox Technologies – Global Market Analysis

Exhibit 1: ADME/Tox Technologies – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million
(*Graphical Representation Included*)

Analysis by Technology

In Vivo ADME/Tox – An Ever Growing Technology

Global Market Analysis

Exhibit 2: In Vivo ADME/Tox Technologies– Global Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States, Europe, Asia-Pacific, Canada and Rest of World (*Graphical Representation Included*)

Exhibit 3: List of Major Global In Vivo Companies

In Vitro ADME/Tox – An Emerging Technology

Global Market Analysis

Exhibit 4: In Vitro ADME/Tox Technologies – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States, Europe, Asia-Pacific, Canada and Rest of World (*Graphical Representation Included*)

Exhibit 5: List of Major Global In Vitro Companies

In Silico ADME/Tox – The Fastest Growing Technology

Global Market Analysis

Exhibit 6: In Silico ADME/Tox Technologies – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States, Europe, Asia-Pacific, Canada and Rest of World (*Graphical Representation Included*)

Exhibit 7: List of Major Global In Silico Companies

4. Regional Market Analysis

Exhibit 8: ADME/Tox Technologies – North American Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

CONTENTS

Analysis by Technology

In Vivo

Exhibit 9: In Vivo ADME/Tox Technologies– North American Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States and Canada (*Graphical Representation Included*)

In Vitro

Exhibit 10: In Vitro ADME/Tox Technologies – North American Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States and Canada (*Graphical Representation Included*)

In Silico

Exhibit 11: In Silico ADME/Tox Technologies – North American Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States and Canada (*Graphical Representation Included*)

Europe

Exhibit 12: ADME/Tox Technologies – European Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

Analysis by Technology

In Vivo

Exhibit 13: In Vivo ADME/Tox Technologies – European Value Market Estimations and Predictions (2005-2015) in US\$ Million for UK, Germany, France, Sweden, Finland, Italy and Rest of Europe (*Graphical Representation Included*)

In Vitro

Exhibit 14: In Vitro ADME/Tox Technologies – European Value Market Estimations and Predictions (2005-2015) in US\$ Million for the UK, Germany, France, Sweden, Finland, Italy and Rest of Europe (*Graphical Representation Included*)

In Silico

Exhibit 15: In Silico ADME/Tox Technologies – European Value Market Estimations and Predictions (2005-2015) in US\$ Million for UK, Germany, France, Sweden, Finland, Italy and Rest of Europe (*Graphical Representation Included*)

Asia-Pacific

Exhibit 16: ADME/Tox Technologies – Asia-Pacific Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

Analysis by Technology

In Vivo

Exhibit 17: In Vivo ADME/Tox Technologies – Asia-Pacific Value Market Estimations and Predictions (2005-2015) in US\$ Million for Japan, China, India, Australia, and Rest of Asia-Pacific (*Graphical Representation Included*)

In Vitro

Exhibit 18: In Vitro ADME/Tox Technologies – Asia-Pacific Value Market Estimations and Predictions (2005-2015) in US\$ Million for Japan, China, India, Australia, and Rest of Asia-Pacific (*Graphical Representation Included*)

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

In Silico

Exhibit 19: In Silico ADME/Tox Technologies – Asia-Pacific Value Market Estimations and Predictions (2005-2015) in US\$ Million for Japan, China, India, Australia, and Rest of Asia-Pacific (Graphical Representation Included)

Rest of World

Exhibit 20: ADME/Tox Technologies – Rest of World Value Market Estimations and Predictions (2005-2015) in US\$ Million (Graphical Representation Included)

III. PRODUCT/TECHNOLOGY RESEARCH

Introduction

1. ADME/Tox – The Basics

Absorption

Distribution

Metabolism

Excretion

Toxicity

Global ADME/TOX Technologies Market

Factors Determined by ADME/TOX

ADME/TOX Properties - Determined by

The Increasing Need to Predict ADME/TOX Profiles

Preclinical ADME/TOX Evaluation Tools

Some of the Current Evaluation Tools for ADME/Tox in Use Include

Preclinical ADME/TOX Tools are generally validated for

2. ADME/Tox – An Essence of Pharmaceutical Industry

Drug Development – An Overview

Origin and Development of New Chemical Entity (NCE)

The Process of Drug Development

Target Identification

Target Validation

Lead Identification

Technologies for Lead Generation

Lead Optimization

Preclinical Trials

Technologies for Preclinical Development of Drug Candidates

Clinical Trials

Phase I

Phase II

Phase III

Exhibit 21: Drug Development Cost - Estimations and Predictions (2005-2015) in US\$ Million (Graphical Representation Included)

Exhibit 22: Drug Developmental Costs by Phase (Pre-approval)

Stages of Drug Development

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

Exhibit 23: The Critical Path for a Drug to Enter Clinical Trials

Improved Technology Infrastructure Increases Potential of Manufacturing Efficiency

Exhibit 24: Improved Technology in Drug Discovery Decreases R&D Infrastructure

Exhibit 25: Estimated Time Required for Development of Drugs by Primary Indication (In Years)

3. ADME/Tox in Drug Discovery Process

The Factors Influencing Drug Approval Rates

Exhibit 26: Current Reasons for Drug Attrition

Exhibit 27: Current Estimated Success Rate in New Drug Development with Increased Technology

Estimating Potential R&D Efficiency Gains from an Improved Technology Infrastructure

The Reasons for the Decline in Success Rates

Exhibit 28: Estimates of New drug Approval and Rate of Failure

Exhibit 29: Reasons for Drug Failure in Clinical Trials Phase I - III

4. ADME/Tox Methods

Predictive Technologies

Overlapping of Predictive ADME/Tox Technologies

Exhibit 30: Change in Expenditure by Technology Infrastructure from 2005 to 2008 in US\$ Million

Exhibit 31: Overlapping of Predictive ADME/Tox Technology Applications across Various Stages of Drug Discovery

In Vivo ADMET

Importance of In Vivo Tests

Exhibit 32: In Vivo ADME/Tox Methods

Modern In Vivo ADME/Tox Models

Zebrafish

Rodent Models

Drosophila

C.elegans

Conventional In Vivo ADME/TOX Models

Radiolabels

Cassette Dosing

Semi Simultaneous Dosing

Why do we Need Animals for Trials?

In Vitro ADMET

In Vitro Assays

Veterinary In Vitro Testing

Exhibit 33: Veterinary In Vitro Testing Technologies – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million

In Vitro Applications for Drug Discovery and Development

Human and Animal Metabolism

Permeation Studies

Other ADME Services

Exhibit 34: In Vitro ADME/TOX Methods

Examples of Human in Vitro ADME/TOX Assays Include

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

- Biological Assay Systems for the Evaluation of Cytochrome P450 Enzyme Isoforms
- In Silico ADMET
- In Silico Applications along Preclinical Stages
- Target Identification
- Lead Optimization
- Target Validation
- ADME/TOX Analysis
- In Silico Predictive Models
- Broad Segmentation of In Silico Technology
- Analysis by Segment
- Exhibit 35: In Silico ADME/Tox – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million
(Graphical Representation Included)
- Applications of In Silico Models in Drug Discovery Process
- Potential Applications of In Silico Technology
- Prediction of In Silico Profiles by Metabolic Behavior
- In Silico Technologies – Market Scenario
- Prospects
- Constraints
- Related Technologies
- Screening Technologies
- High Throughput Screening
- Primary Screening
- Secondary Screening
- Biochemical Assays
- Cell based Assays
- High Content Screening
- 5. Toxicity**
- Toxicity – An Overview
- Exhibit 36: Percentage of Toxicities Leading to Drug Failures in Clinical Trials (Phase I-III)
- Toxicology - Reason for Drug Failure
- Preclinical Toxicology
- Predictive Toxicology
- Methods and Challenges Involving Predictive Toxicology in Drug Discovery & Development
- “Rule of Five”
- ADME/Tox Models (Statistical Significance / Mechanistic Interpretation)
- Challenges of ADME/Tox Prediction
- Determining Factors for Effective Predictive Toxicology in Preclinical Stage
- Remedial Measures
- Types of Toxicities
- Exhibit 37: Common Types of Toxicity Targeted for ADME/TOX Predictive Techniques
- Hepatotoxicity or Drug Induced Liver Injury (DILI)

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

Metabolism of Drugs
Mechanism of Liver Damage
Adverse Drug Reactions
Treatment and Prognosis
Cardiotoxicity
Cardiovascular Toxicity and QT Prolongation
Nephrotoxicity
Diagnosis
Neurotoxicity
Pulmonary Toxicity
Diagnosis
Pulmonary Toxicity Due to Medicinal Drugs
Pulmonary Toxicity Due to Radiation (Radiotherapy)
Pulmonary Toxicity Due to Chemical Compounds
Pulmonary Toxicity Due to Particulate Matter (cars, industry, etc)
Myotoxicity or Muscle Related Diseases
Dermatotoxicity or Skin Related Allergies
Phototoxicity
Oculotoxicity
Reproductive Toxicity
Genotoxicity
Ames Testing to Confirm Genotoxicity
Genotoxicity and its Serious Impact on Regulatory Agencies
Hematotoxicity
Carcinogenicity
Cytotoxicity
Torsades de pointes
Exhibit 38: Common Approved In Vitro and In Vivo Procedures
Types of Predictive Toxicology
Computational Toxicology
QSAR
In Vitro Toxicology
Exhibit 39: Non-animal Methods being Considered for Validation
In Vitro Toxicology – Liver Cell Models
Tissue Culture Systems Used in In Vitro Toxicology
In Vitro Toxicology Applications
Genomics in Toxicity Testing
Examining Neurotoxicity
Alternatives for Animals in Toxicity Testing
Exhibit 40: Common Animals Used for ADME and Toxicity Testing

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

6. ADME/TOX and Drug Discovery Technologies

Pharmacogenomics

Pharmacokinetics

LADMET-R and Pharmacokinetics

ADME Associated Proteins

Classification of ADME Associated Proteins based on their Pharmacokinetics Roles

A – Category

D – Category

M – Category

E – Category

Bioinformatics

7. Challenges Facing the ADME/TOX Market

IV. MARKET DYNAMICS

1. Global Market Analysis

Exhibit 42: ADME/Tox Technologies – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States, Europe, Asia-Pacific, Canada and Rest of World (*Graphical Representation Included*)

Global Markets in Related Technologies

Laboratory Information Management Systems

Global Market for LIMS

Exhibit 43: Laboratory Information Management System (LIMS) – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

High Throughput Screening

Global HTS Market

Exhibit 44: Laboratory Information Management System (LIMS) – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

HTS Analysis by Geographic Region

Exhibit 45: High Throughput Screening (HTS) – Global Value Market Estimations and Predictions (2005-2015) in US\$ Billion for United States, Europe, Asia-Pacific, Canada and Rest of World (*Graphical Representation Included*)

Global Market for HTS Products

Exhibit 46: HTS Products – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

Global Market for Re-Screening of Hits

Exhibit 47: Re-Screening of Hits – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

Global Market for HTS Services and Consumables

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

Exhibit 48: HTS Services and Consumables – Global Value Market Estimations and Predictions (2005-2015) in US\$ Billion (*Graphical Representation Included*)

Global Market for HTS Services and Call Based Consumables

Exhibit 49: HTS Services and Cell Based Consumables – Global Value Market Estimations and Predictions (2005-2015) in US\$ Billion (*Graphical Representation Included*)

Global Spending on HTS for Lead Discovery

Exhibit 50: Spending on HTS for Lead Discovery – Global Value Market Estimations and Predictions (2005-2015) in US\$ Billion for United States, Europe, and Rest of World (*Graphical Representation Included*)

Cell Based Assays

Global Market for Cell Based Assays

Exhibit 51: Cell-Based Assays – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million (*Graphical Representation Included*)

Cell Based Assay Analysis by Geographic Region

Exhibit 52: Cell-Based Assays – Global Value Market Estimations and Predictions (2005-2015) in US\$ Million for United States, Europe, Asia-Pacific, Canada and Rest of World (*Graphical Representation Included*)

Global Pharmaceutical Cell Based Screening Market

Exhibit 53: Pharmaceutical Cell-Based Screening – Global Value Market Estimations and Predictions (2005-2015) in US\$ Billion (*Graphical Representation Included*)

Global Drug Discovery Market

Global Drug Discovery Expenditure

Exhibit 54: Drug Discovery Expenditure – Global Value Market Estimations and Predictions (2005-2015) in US\$ Billion (*Graphical Representation Included*)

Global Biotech Industry at a Glance

Major Research Areas in Biotechnology

Exhibit 55: Global Biotechnology Industry (2005): Percentage Breakdown of Major Research Areas (*Graphical Representation Included*)

2. The Need of the Hour

3. ADME/Tox – The Emerging Trends

Other Side of the Coin

4. Major Companies in ADME/Tox Market

AB Sciex (USA)

Accelrys, Inc. (USA)

Advanced Chemistry Development, Inc. (ACD/Labs) (Canada)

Agilent Technologies, Inc. (USA)

Albany Molecular Research, Inc. (USA)

Aureus Pharma (France)

ADME/TOX TECHNOLOGIES

A MARKET INSIGHT REPORT– JANUARY 2011

CONTENTS

Bayer Technology Services GmbH (Germany)

BD Biosciences (USA)

More...

5. Major Activities in ADME/Tox Market

Danaher Buys AB SCIEX and Molecular Devices

BioTrove Spins-off BIOCIUS Life Sciences

JOHCM Private Equity Acquires Celsis International plc

Roche Signs Agreement with Fluofarma

Applied Biosystems and Invitrogen Merge to Form Life Technologies

Pfizer and WuXi PharmaTech in New Collaboration Agreement

Charles River Buys MIR Preclinical Services

Gene Logic Divests Genomics Assets and Changes Corporate Identity

Cerep Sells Hesperion AG Business to Averion International

Waters Corporation Signs Collaborative Agreement with Umetrics AB

Avista Capital Acquires BioReliance Corporation

Strand Life Sciences forms Partnership with BioIT Alliance

BGM Conducts Joint Toxicity Study with FDA

Simulations Plus Acquires Sage Informatics

More 100 plus activities listed in reverse chronological order.....

6. Major Product Introductions/Developments in ADME/Tox Market

BIOCIUS Life Sciences Expands New ADME Assay Analysis Based Contract Research Service

GeneGo Launches ToxHunter Tools for Systems Toxicology Research

Absorption System Launches Express Plus ADME Assays

XenoTech Launches CryostaX™, an Innovative Single-Freeze Source for Human Hepatocytes

Aureus Pharma Launches DDI Predict 2009 Edition

BioTrove Launches RapidFire 300 for In-vitro ADME Screening

Thermo Fisher Scientific Launches ToxSpec Analyzer

New Technology Employed in ADMET Predictor™ 3.0 for Molecular Descriptors

Pharma Algorithms Releases New ADME Boxes Version 4.0

InterMune Employs B-CLEAR® Technology for Drug Discovery Applications

Invitrogen Launches Advanced Transfection Reagents

Bionas Launches In Vitro Profiling Device

Schrödinger Updates Schrödinger Suite 2006

Bioreason Unveils ClassPharmer Suite

GE Healthcare Releases ADME Rat Microarray

More 100 plus product introduction/developments listed in reverse chronological order...
